CSE 330: Numerical Methods
SET- B

1. [CO3] Let $\beta = 2$, $m = 5$, $e_{\min} = -6$ and $e_{\max} = 0$. Answer the questions from (a) to (b) using the given data:
 - (a) (3 marks) Compute the maximum and the minimum non-negative number for the Normalized form
 - (b) (3 marks) How many non-negative numbers can be represented using the Normalized form using this system? Explain your answer.
 - (c) (4 marks) Let $\beta = 2$ and $m = 3$. Calculate the value of $fl(xy)$ for this system using Convention 2, where $x = 9/16$ and $y = 3/2$
